DB1 Front Propel

DB1 Front Propel is a fully modular wheelchair. Its multi adjustable universal axle plate allows it to be set up in reverse wheel configurations and provides half-inch vertical and horizontal adjustments for increased wheel access for the user.

Lightweight spoke wheels significantly lighten the overall load and increase manoeuvrability.

The DB1 Front Propel has been designed to interface with a wide variety of seating systems and custom seats which are easily mountable to the frame.

Features

Multi-position
front wheel axle plate

Ultra soft easy-to-clean
seat & backrest upholstery
