DB1 Attendant

Made from an aluminium double brace for added strength and rated for users up to 125kg, the DB1 Attendant is designed to excel in rear pushing ability.

The purpose of the DB1 Attendant is to enable the occupant to relax whilst being pushed at the rear of the chair. This high comfort, high quality wheelchair is reliable, durable, strong and can be modified in any way to suit the user's exact needs. It is one of the lightest wheelchairs on the market with this feature set and can be easily folded and stowed for transportation in a small car.

The DB1 Attendant satisfies the requirements of ISO 7616-19.
